Easy-to-Lock Applicator
Clamping Device.

Applicator Clamping Device
can be used with different
afterloaders.

The trolley comes with
hooks for hanging disposal
bags and others.

Improves workflow efficiency for various radiotherapy protocols

The universal design of the transfer system greatly improves clinics' operation efficiency and their patient throughput by allowing patient setup on the transfer device in various radiotherapy protocols.

for Brachytherapy

for SBRT

for SRS

for R612-AIO

Klarity TRAVELER™

Features and Benefits

• Easy

The built-in air pump improves the device integration.

Height memory for quick adjusting to the preset trolley height. Manual adjustment available too.

• Safety

Emergency brake system.

One Footbrake controls four wheels synchronously.

- The built-in rechargeable battery enables flexible and continuous use of the transfer system.
- High quality patient trolley makes the transfer smooth.

MR Patient Transfer Systems

Patient Transfer System for Brachytherapy

- MRI compatible and safe for use up to 3.0T
- Convenient to insert applicators
- Optimize workflow efficiency

MR Patient Transfer System for Brachytherapy

Patient Transfer System for Brachytherapy

Item No.: KT-810M

- MRI Compatible up to 3.0T
- Safe and Reliable
- Easy and Convenient
- Human-centered Design

MR Conditional up to 3.0T

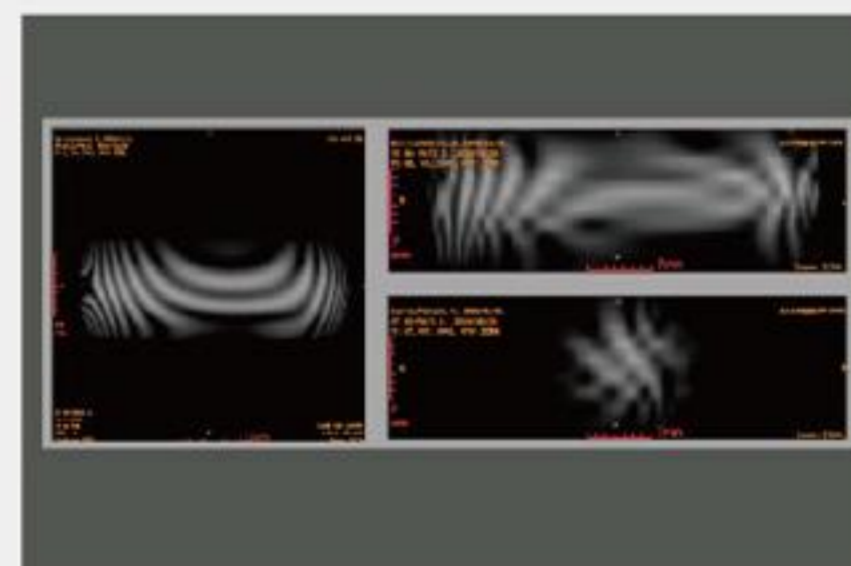

• MRI Compatible

Safe for use up to 3.0T

MR-safe Material

High Quality Imaging

• Safe and Reliable

Smooth and stable electric lifting

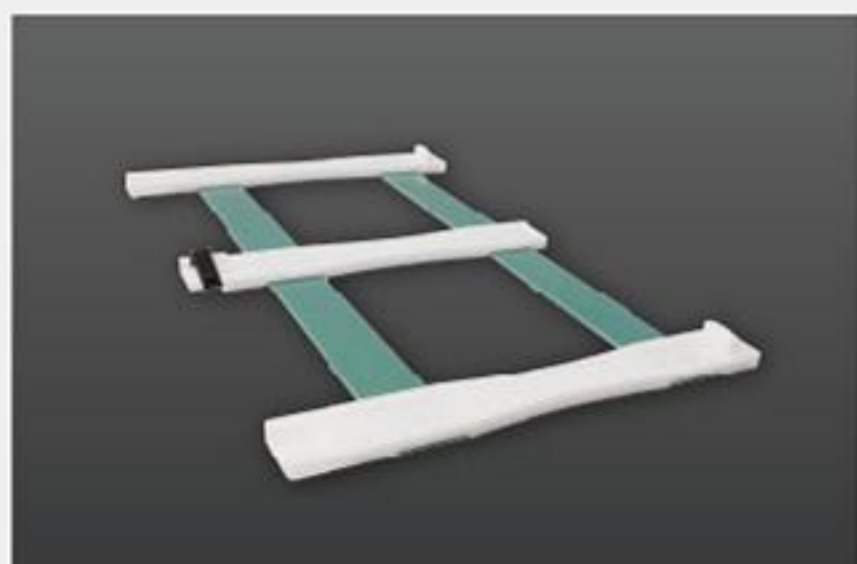

Side rails protect patient from unintentional falls

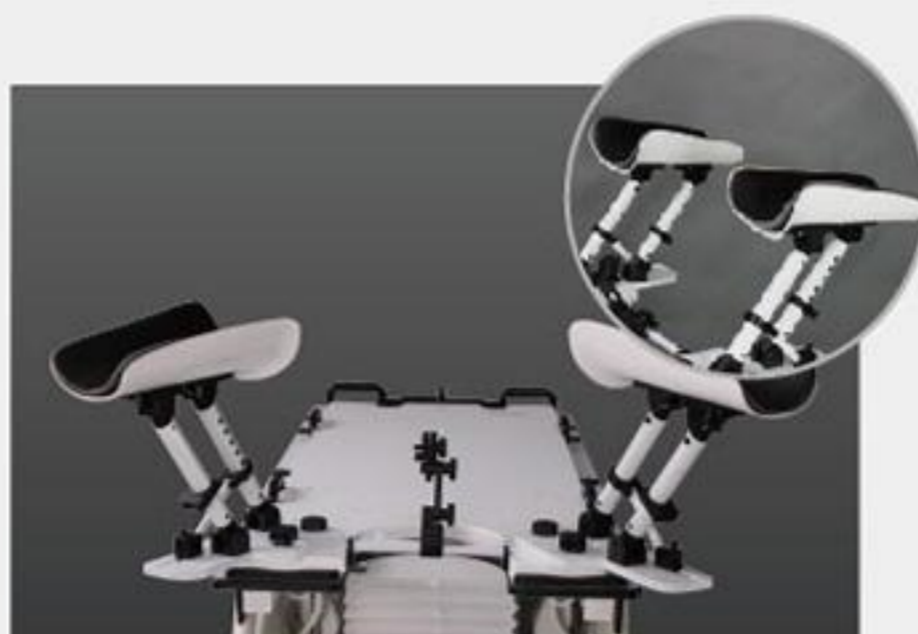

Secured on the transfer system

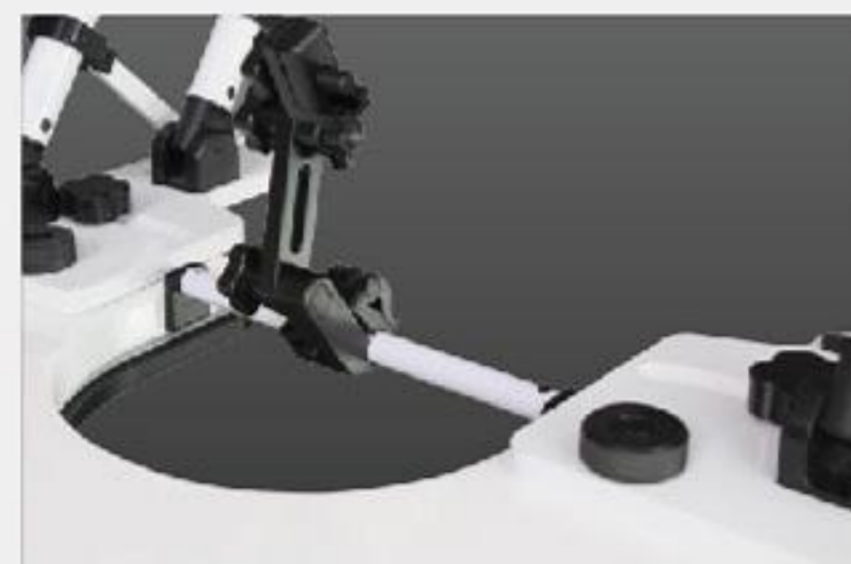

• Easy and Convenient

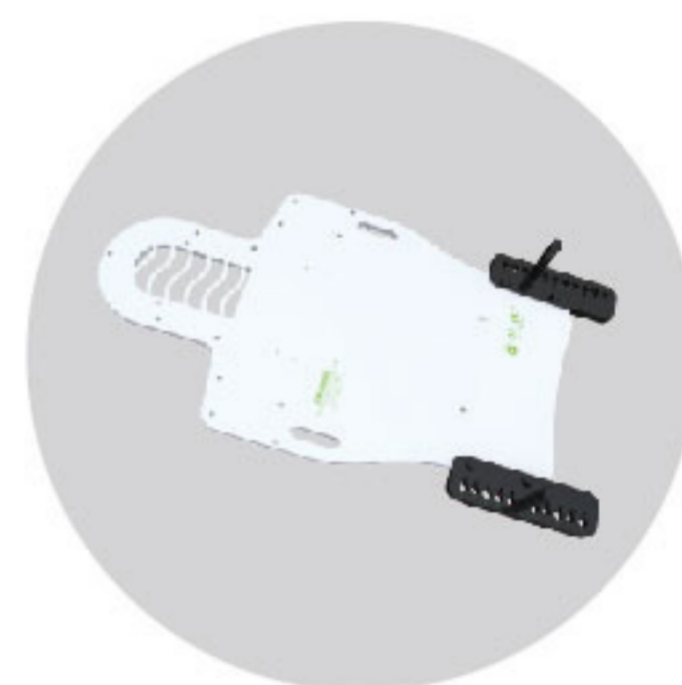

Transfer Aid:
Easy to transfer the patient with the use of the transfer aid

Adjustable Leg Supports

Applicator Clamping Device
